INTELLIGENT VOICE CONTROL

The **BLANC PB427** delivers vibrant, dynamic color output with 27 high-power RGBW LEDs and professional DMX512 control for flexible lighting performance. Its **0–100% linear dimming** and multiple operating modes—including DMX, master-slave, sound-activated, and automatic—make it ideal for creative stage, club, and event lighting.

Built for reliability, the fixture features a rugged **cast aluminum housing**, efficient cooling, and long LED lifespan, ensuring consistent performance for live shows, weddings, parties, and more. With universal **AC100–240V** input and versatile beam options, the Thor series combines durability with expressive lighting effects.

FEATURES

- Thickened, reinforced housing for improved durability and long-term reliability.
- Low-noise cooling fan design ensures quiet operation, ideal for stage and indoor environments.
- Split crossflow mainboard architecture enhances signal stability and heat dissipation efficiency.
- Signal hold function maintains the last operating state automatically when the signal is lost, ensuring uninterrupted performance.
